CORE GROUP MEETING #24

PROJECT
Dover Area High School
CRA Project No. 3068

In Attendance: Representing:

Tracy Krum DASD – Assistant/Acting Superintendent
Jennifer Benko DASD – Business Manager
Dave Nelson DASD – Operations Director
Jared Wastler DAHS - Principal
Scott Cousin Crabtree, Rohrbaugh & Associates

On the above date, a core group meeting was held at the Dover Area School District Offices to discuss the Dover Area High School project. Pertinent issues and items of discussion are as follows.

1. The ACT 34 presentation was reviewed. A link shall be added to the project page on the district website.
2. It was noted that the fire department will not permit gas powered equipment stored inside the building. DASD will review this with the fire department given the building will be fully sprinklered.
3. Add storage component to the baseball and softball home dugouts.
4. It was noted that there is a 10,000 gallon oil tank (which is currently not being used) at the existing Intermediate School. This should be removed in the first phase by the site contractor. DASD to pump down tank prior to removal.
5. Provide an operable partition in the LGI.
6. The black box component in the LGI is to be fulfilled with minimal lighting and AV in lieu of a full blown black box design.
7. The project was reviewed with other key district personnel and principals.

Respectfully submitted,
CRABTREE, ROHRBAUGH & ASSOCIATES

Scott Cousin, AIA, LEED AP
Principal, Senior Project Manager
