On the above date, a core group meeting was held at the Dover Area School District Offices to review the Dover Area High School project. Pertinent issues and items of discussion are as follows.

1. A draft schematic floor plan was reviewed and the following pertinent items discussed:
   a. The need for separate natatorium lockers was questioned.
   b. The receiving area should have direct access to the kitchen.
   c. Outdoor access should be provided to the scene shop.
   d. Corridors shall be sized to handle lockers should they be required in the future. Plan for 300 lockers in project for students who may request them.
   e. Provide outdoor secure seating for dining.
   f. Commons should be secured for afterhours use.
   g. DASD to decide if Alt Ed will remain at the existing High School, or be planned with the new School.
   h. Connect main commons stair to upper level of Gymnasium.
   i. The public will use, and need access to, the cardio and weight rooms.

2. Some preliminary thoughts on reduction of program space:
   a. Size of the ILC (based on recent tour of Middletown Are High School).
   b. Greenhouse (size of existing is adequate)
   c. CTE lab size
   d. Art Studio

Respectfully submitted,
CRABTREE, ROHRBAUGH & ASSOCIATES

Scott Cousin
