

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three- part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Section 1 - Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

We use benchmark and diagnostic assessments. Students who do not meet grade-level benchmarks will be invited to participate in summer programs. Priority will be given to students who are furthest below benchmarks. Students who have failed courses, and require credit

recovery will be invited to participate. Priority will be given to students who are credit deficient for graduation.

Section: Narratives - Summer School Program Questions

Summer School Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	100	Reading instruction was delivered using Science of Reading practices by reading specialists. Foundations Ready to Rise
Children from Low-Income Families	Academic Growth	91	Summer school was offered to students who failed courses at middle school.
Children from Low-Income Families	Academic Growth		Students who were credit deficient toward graduation were invited to participate in summer school for credit recovery.

3. Describe the evidence-based resources that will be used to support student growth during the summer school program.

Programs that use decodable readers and are congruent with the Science of Reading will be used by reading specialists to remediate K-5 students in ELA. Teachers will use Everyday Math resources to provide skill-deficit instruction to students who are below benchmark in math. Online courses will be purchased through Edmentum for credit recovery for students

who failed courses.

4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
4 Elementary	Internal Provider	Teachers and reading specialists
6 Middle school	Internal Provider	Teachers

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Course grades	End of program	Students will earn a passing grade in the credit recovery course,
Local Assessments	Beginning and end of program	Teachers will administer a pre-test and post-test to measure growth.

6. How will the LEA engage families in the summer school program?

Letters will be sent home to all students who are eligible for summer school: students below

benchmark and students who failed courses. Letters will be follow-up with phone calls to families.

Section: Budget - Instruction Expenditures

Instruction Expenditures

Budget
 \$52,940.00
Allocation
 \$52,940.00

Budget Over(Under) Allocation
 \$0.00

Budget Summary

Function	Object	Amount	Description
1000 - Instruction	100 - Salaries	\$52,940.00	Hourly pay for teachers who provide summer school instruction.
		\$52,940.00	

Section: Budget - Support and Non-Instructional Expenditures

Support and Non-Instructional Expenditures

Budget
\$52,940.00
Allocation
\$52,940.00

Budget Over(Under) Allocation
\$0.00

Budget Summary
